Sarix Enhanced 4P Series Camera

Where reliability and privacy go hand-in-hand

The Sarix Enhanced 4P Series camera introduces new analytic capabilities and sets an even higher standard for security by simultaneously running multiple analytics. Extract more information and in greater detail to optimize threat detection and response efficiency. Whether it's a brief power outage or an extended disruption, say goodbye to downtime or data loss with the camera's ability to switch power sources automatically. Intentionally designed without a microphone, the camera optimizes privacy and compliance by excluding audio recording and analysis. More power, more privacy, all on the Sarix Enhanced 4P camera.

Protect more things at once
Leverage Pelco Smart Analytics to detect human and vehicle events. Enhance capabilities further with advanced features such as crowd thresholds, basic feature identification, vehicle type differentiation, crawling detection and privacy masking[1].

Enhanced clarity and coverage
Capture crucial details and provide valuable evidence with clearer, sharper footage. Record up to 60 frames per second for fast-moving objects. Ensure optimal security day and night with wider dynamic range, split IR dome and IR Illumination options.

Resilient in every condition
Save on maintenance and operational costs with the camera's durability. Handle even more extreme weather conditions with wider operating temperature ranges and IP66, 67, 68, X9 and IK10/11 ratings[2].

Secured from the inside out
The Sarix Enhanced 4P Series camera ensures high data-security with onboarded TPM, Secure Boot and FIPs-140-2 Level 3 compliance. Manufactured in North America, NDAA and TAA-compliant, it's an ideal choice for security-focused businesses and organizations.

Elevate enabled
Enhance your camera management with cloud-based AI intelligence, seamlessly integrating with your existing system. Cut maintenance costs by automating camera checks and receiving notifications for image health or cloud connection changes.

Increased compatibility
Easily integrate Sarix Enhanced 4 with any third-party VMS using ONVIF S, G, T, and M conformance. Genetec and Milestone users have the ability to unlock analytics to their full potential with the introduction of Pelco Connect. This powerful add-on provides access to a range of advanced functionalities.

[1] Crowd Threshold, Vehicle Subclasses and Facet Metadata capabilities will be dependent on VMS and configuration availability. Privacy masking will be available post-launch via a firmware release.
