

SPECTRA® PROFESSIONAL 2 2MP 30X SERIES PTZ DOME CAMERAS

COST EFFECTIVE PTZ DOME COVERING YOUR EVERYDAY SECURITY NEEDS

Spectra® Pro Series is ideal for common applications such as commercial, education, corrections, gaming and healthcare requiring broad coverage with fewer cameras. Featuring preset tours, patterns, and scans the Spectra Pro PTZ dome offers 360° automated coverage without the need for management by a live operator. With 2MP and 30x optical zoom the professional series provides a wide angle and can zoom in for greater detail. Low latency and smooth pan tilt zoom, the camera is easy to control with a joystick for high performance tracking of objects.

PTZ

WIDE AREA COVERAGE

Provides 360° views in high-resolution to monitor large areas with ease.

WIDE DYNAMIC RANGE

Captures details in scenes with both very bright and very dark areas.

LOW LATENCY

Low latency smooth PTZ for high performance tracking of objects.

ONVIF® COMPLIANT

Native ONVIF Profile S, T and G compliance allows easy integration with existing ONVIF infrastructures.

H.264 AND H.265 WITH SMART COMPRESSION TECHNOLOGY

Retains image quality and critical information while reducing storage and bandwidth requirements to lower connectivity costs.

WATER, IMPACT & ENCLOSURE RATED

IP66 rating for water resistance, IK10 impact rating for vandal resistance and Type 4X enclosure rating for windblown dust, water (e.g. rain, hose-directed water) and corrosion resistance.

PRO VIDEO ANALYTICS

ProAnalytics enhance the camera flexibility and performance. Loitering detection, object counting, motion detection, camera sabotage and audio detection alert security operators of events that may require further investigation.
